Siemens HQ Visit

The Gorton Young Ambassadors were invited to visit the Headquarters of Siemens in Chorlton to learn more about engineering and the possible careers in this field.

It was a fun packed day with lots of hands-on learning, including building their own machines and testing existing components and parts of machines.

The idea behind this visit was to show the Ambassadors new potential careers and give them the opportunity to dream of a future they didn't know existed.

We have more educational trips coming up soon.

A day at the circus!

During the Easter holidays we got free tickets to the circus in Salford, we were all very excited.

We had to travel from Gorton, through the city centre to reach the circus.

Only 3 of us could make the trip, it was Poppy, Amy and me.

The trip was fun, especially the circus acts, I am so happy I was asked to go.

I learned that you should never give up in life, it takes a long time to be a circus act and lots of training.

I don't want to join the circus, but whatever I decide will take hard work and training.

Katie — Gorton Young Ambassador

Exciting News for Salford

After 4 fantastic years of this project being in Gorton, we are pleased to announce that it is expanding to the Affinity Sutton Salford estate.

We will be combining Manchester and Salford into one new Ambassadors project. Of course, this means we will have to change the name of the project. We are sure the young people from both estates will come up with a new name.

We are now based at the Community Centre in Salford, so please pop in and see us if you want to be one of the new Salford Young Ambassadors. Age 11yrs to 18yrs.

Over the next few months we will be visiting the L'Oréal factory, going on a residential, attending the theatre, completing a qualification and have fun along the way.

Theatre

The Theatre at HOME was great. I liked that the show was about Brexit because it made me understand Brexit a bit better.

The show shocked me at first, but it turned out amazing and I loved every bit of it.
